

Q: What annual district event

- Draws more than 1,500 middle-grade students?
- Engages more than 350 volunteers (Optimists and friends)?
- Promises an educational and enjoyable experience for everyone?

A: *The Optimist Brain Bowl!*

Are You and Your Club Involved?

The Optimist Brain Bowl is a team academic competition for grades 6-7-8 in Colorado and Wyoming. The kids answer questions based on speed and accuracy related to math, science, history, computers, literature, and common sense. It's like "Jeopardy" with teams.

It consists of three regional competitions:

- North: Saturday, January 21, 2012, Monarch High School, Louisville, CO
- Central: Saturday, February 4, 2012, Heritage High School, Littleton, CO
- South: Saturday, February 25, 2012, Location to be confirmed.

Wait, there's more! This year a championship event has been added on March 3. Top teams from each of the regional competitions will compete against one another.

Volunteers are needed to serve as scorekeepers, timekeepers, readers in classrooms, runners and written proctors. We are requesting a donation of \$75 or more from your club to support this growing competition.

Members of more than 30 clubs joined us this year. Twenty-two contributed financially.

→ Come have fun, catch the enthusiasm and meet your fellow Optimists.
